

Capabilities Statement

Core Competencies

TravelRx is a *mobile* clinical pharmacy team meeting the needs of international travel groups from intake to immunization. The focus is on disease prevention, safety and convenience.

Our mobile clinical pharmacists will handle:

- Individual health evaluations
- Vaccines and medication preparation
- Onsite delivery of health services
- Trip specific health and safety recommendations
- HIPAA compliant records management

Past Performance

Vidya Nair, Pharm.D., serves as an Emergency Dept. Pharmacist for a large health network in South Sound.

- Started **Pharmacists Response Network**
- Developed a partnership with Office of Emergency Preparedness and Response with **Washington State Department of Health** to deliver this initiative state-wide
- Gained partnership with **Washington State Pharmacy Association** to recruit pharmacists state-wide
- Gained partnership with Washington State University, College of Pharmacy
- Connected with **Washington State Medical Reserve Corps (MRC)** and the national Director of MRC to explore volunteer recruitment and training

Differentiators

With virtually no competition in this space, TravelRx is competing against outdated mindsets. We have converted a two-step process of visiting brick and mortar health care facilities into a convenient one-step service – travel medications, vaccines and trip counseling at your door.

Key differentiators:

- ✓ No more waiting rooms at doctors or clinics
- ✓ No more trips to the pharmacist
- ✓ No more follow-up trips to clinic for vaccine administration
- ✓ Trip documents focused on health risks and safety customized for your group
